

Drop leaf tables are a great option to give versatility to your space by allowing tables to easily transform.

Slide Bar Drop Leaf Tables

Drop leaf tables are available in solid wood, laminate, and padded. Soft Touch Furniture's slide bar drop leaf mechanisms are made from heavy duty zinc plated steel and allow for a completely sag-less extension of your table.

Each mechanism consists of one slide bar and two hinges per leaf allowing for maximum support.

Hinge

Slide bar drop leaf table features:

- 5 year warranty on hardware
- Extremely heavy duty solid steel bar and hinge hardware
- Sturdy, non-sagging leaf in extended position with no adjustments required
- Heavy duty hardware to lock leaf in closed position
- Non-obtrusive hardware
- Spring-less hinges for easy, safe operation—no pinched fingers

Standard sizes:

- 30" square to 42" round
- 36" square to 51" round
- 42" square to 60" round
- Other sizes and configurations available

Slide bar: table closed

Slide bar: table open

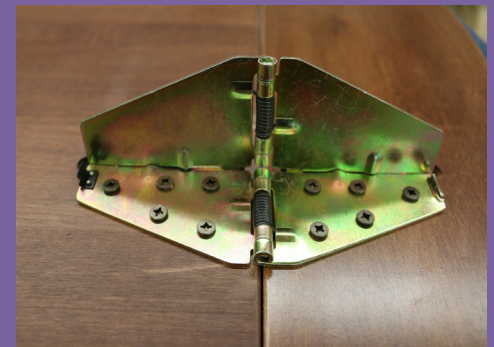

With drop leaf tables you can easily transform your tables from square to round with just one simple motion.

Flap Hinge Drop Leaf Tables

As with the slide bar drop leaf tables flap hinge drop leaf tables are available in solid wood, laminate, and padded. Soft Touch Furniture's flap hinge leaf mechanisms are made from heavy duty steel and allow for a very strong table extension.

Each mechanism consists of two flap hinges per leaf for maximum support.

Flap hinge

Flap hinge: closed

Flap hinge: open

Flap hinge drop leaf table features:

- Designed for lighter usage than slide bar drop leaf mechanisms
- Flap length should be no more than 8"
- Heavy duty solid steel hinge automatically lock leaves in horizontal position
- Hinges are finished in yellow chromate
- Hinges are under constant spring tension
- Spring action to allow for easy table transformation

Standard sizes:

- 30" square to 42" round
- 36" square to 51" round
- 42" square to 60" round
- Other sizes and configurations available
