Soft Touch Furniture

1560 South State Street

Girard, Ohio 44420

U.S.A.

Product warranty is one year under normal use and maintenance from warehouse to delivery point.

All designs and specifications are subject to change without prior notice. Any item or material may be discontinued without prior notice. All weights and dimensions are approximate.

Limits of Liability: The extent of Soft Touch Wood, LLC's, liability is limited to the purchase price of the product sold. In no event shall Soft Touch Wood, LLC, be liable for injury, loss, or damage, whether direct, consequential, or incidental, to persons or property arising out of the purchaser's use or of any inability to use said products.

It's All About That Base!

A table's top gets the most attention, but the base is what really makes it work. Not only does a base need to look good, it must hold the table level and be stable. Customers always notice a wobbly table.

Our table bases perform exactly the way you want them to—they are sturdy, strong, and able to stand up to daily use. We have a wide selection of stylish looks and features, including:

- A myriad of sizes
- All manner of foot and base options
- Several finish options, including powder coated

Delivery and setup are our pleasure!

You will love the variety in the following pages. Call us when something catches your eye. We are happy to help!

Types of Bases

Bases come in five basic types: X-style, round, end base, bolt-down, and cantilever. End bases are always used in pairs, the bolt-down style is fixed to the floor, and the cantilever style is fixed to the wall.

X-Style

Round

End Base
(Used in pairs)

Bolt-Down

Cantilever

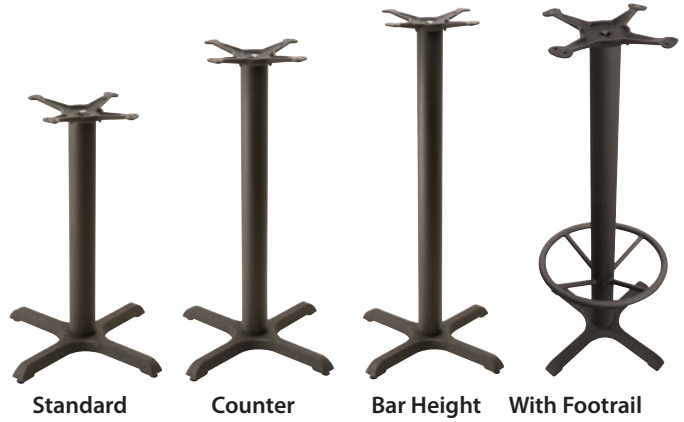

Bases are shipped K.D.; assembly required. Assembly is available on request.

Basic X-Style and Round Bases *(Our most popular bases)*

Flip Top and Sure Lock

90272—Flip Top Mechanism

This mechanism allows your table top to tilt for easy cleaning or storage. It is compatible with bases that use a long rod for the column assembly. It cannot be used with vintage style bases or table tops larger than 36" x 36", and we do not recommend this accessory for use with heavy table top materials such as granite or stone regardless of size.

55501—Sure Lock Table Connectors

Sure Lock connectors are the safe, quick, and secure way to connect two or more tables together to form one larger table. A steel lever and latch system lines up and locks tables together when needed and can be taken apart easily.

Superlevel

A wobbly table is a distraction that reflects badly on any establishment.

We can use Superlevel self-adjusting glides on our bases to prevent wobbling. Stable tables ensure that customers' attention is on your food and ambiance, not on keeping their drinks upright.

Advantages of Superlevel glides:

- Easy to install
- Automatically readjust each time the table is moved
- Keep all contact points touching the floor
- Correct for uneven or irregular surfaces
- Adjust up to 1/4"
- Designed and manufactured with high-grade materials
- Use indoors or outdoors
- Load capacity of up to 500 lbs. per set of four

Superlevel
Automatic Self-Adjusting Glides
The Permanent Solution For Wobbly Tables

For additional information on our bases, including installation, quotes, warranty, and pricing, give us a call at 877.747.7638. We are glad to help!

A Final Word

We hope that this catalog has given you insight into both our products and the way we do business. In this bustling, change-a-minute world, it's reassuring to find a company that does what it promises—and with a personal touch.

When you call us, you talk with real people who are focused on your needs. Whether you own one establishment or are the buyer for a large chain, you can expect nothing less than our full attention and our very best work. And we will do it all at a price that you will love. Yes, you can have it all! High quality does not have to break the bank. Get in touch with us today and prepare to be pleasantly surprised.
